SG1A

The target has been a source of drug smuggling. Drugs are exchanged for profit or money by middlemen who are working as part of a group. The target is associated with a powerful bald man who wears a white suit. The transport of drugs via waterways overseas has been successful in the past. One way to penetrate this individual's endeavors is to investigate his connections and the people around him. His activities are well organized and the narcotics are marketable to several different operators.

DATA SUMMARIES

Project 94-279-0

29 Nov 94

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source. Tasking from your office was: Access and describe target [REDACTED]

SG1A

- (S/NF/SG/LIMDIS) Source A:

-- The target [REDACTED] has been a SG1A source of drug smuggling. Drugs are exchanged for profit or money by middlemen who are working as part of a group. The target is associated with a powerful bald man who wears a white suit. The transport of drugs via waterways overseas has been successful in the past. One way to penetrate this individual's endeavors is to investigate his connections and the people around him. His activities are well organized and the narcotics are marketable to several different operators.

- (S/NF/SG/LIMDIS) Source B:

-- [REDACTED] flip-flops between involvement with heroin and illegal endangered animal parts. He is currently involved with the latter. I sense large and flat animal-shaped objects covered with fur reminiscent of a large cat i.e. snow leopard or tiger. These are tightly rolled up and packed within a metal tube which feels cool to the touch. The sides of the tube are thick as if there were more than one layer thick.

SG1A

-- I sense movement down a long tube or tunnel surrounded by rock. It comes out into a cavern with people in it. They are using lanterns for light and heat. They seem to be splitting something; like peeling something apart. The imprint of their operation is that of a running cat.

SECRET

-- There are numerous stackable tables or trays. It feels potentially dangerous here. For some reason, the target professes to be a devote catholic when the situation suits him. He is fond of Egypt; maybe artifacts or politics; something reflective of the nature of the Egyptian people.

- (S/NF/SG/LIMDIS) Source C:

-- Target is a male individual of Eastern origin. Although the individual reminds one of a terrorist, he is probably involved in illegal drug trafficking. He has been searched for and wanted for a very long time. He has dark hair and is not considered old. He has a lot of energy and he works at night. SG1A is a Pakistani drug smuggler who is brown eyed with semi dark skin. He is located around a poor looking brown shed like house and muddy waterways. Drugs ready for shipment are wrapped in white plastic to be delivered within the next five weeks. He is associated with a man whose last name, interestingly enough is Pedros.
